

HTD14M XHPL

Elatech is proud to announce the new HTD14M XHPL. This product has been conceived through extensive research and development. Demand for this product evolved from our experience and knowledge of heavy applications requiring a higher degree of repeatability. HTD14M XHPL features and benefits make it an excellent alternative to chain drives.

The typical applications for HTD14M XHPL are:

- Vertical lifting & positioning,
- ASRS (Automatic Storage & Retrieval Systems)
- VSRs (Vertical Storage & Retrieval Systems)
- Heavy product conveyance

Features and benefits of HTD14M XHPL:

- ✓ High load capacity with low stretch
 - Smaller footprint of drive
 - Precise positioning
- ✓ Excellent flexibility
 - smaller pulleys are space saving
 - minimum pulley diameter starting at 150mm
- ✓ Maintenance Free
 - no lubrication required
 - no re-tensioning needed
 - no elongation during service life
- ✓ PAZ comes standard
 - reduced noise
 - reduced friction on slider bed
- ✓ Precise tooth engagement
- ✓ Available in widths up to 150mm and customized roll length upon request
- ✓ Mounts on standard HTD pulleys

**HTD14M XHPL IS YOUR RELIABLE, CLEAN,
QUIET, MAINTENANCE FREE ALTERNATIVE
TO CHAIN.**
