

# Sunnex SM Anti-vibration mount

## Facts

- **Withstands loads up to 3400 kg per machine mount**
- **Square pressure plate made from special grade cast iron that rests on an integrated nitrile rubber damping pad**
- **Can be combined with a wide variety of levelling bolts**

**SUNNEX SM** is a machine mount that has been specially designed for light to medium heavy machinery used in processing, plastics and rubber industry, e.g. injection moulding machines and engineering machinery.

Sunnex SM comprises a square cast iron pressure plate that rests on a Sunnex SP 714 pad that withstand most types of grease, acid, oil and cooling emulsion normally used in industry. Sunnex SM can be combined with a wide variety of galvanized levelling bolts of different lengths (see the table on the right).

Square absorption plate made from cast iron

Integrated anti-vibration pad made from impervious nitrile rubber

## Application areas

- **Injection moulding machines**
- **Engineering machinery**

| Model | Load area per mount daN (kg) | L mm | B mm | H mm | Part no. |
|-------|------------------------------|------|------|------|----------|
| SM 61 | 275–575                      | 83   | 83   | 26   | 46002    |
| SM 62 | 600–1500                     | 123  | 123  | 28   | 46004    |
| SM 63 | 900–2400                     | 148  | 148  | 30   | 46006    |
| SM 64 | 1200–3400                    | 173  | 173  | 32   | 46008    |

| L mm | Levelling bolt | NV1 mm | NV2 mm | Part no. |
|------|----------------|--------|--------|----------|
| 120  | M12 x 1,25     | 9      | 19     | 19013    |
| 150  | M12 x 1,25     | 9      | 19     | 19014    |
| 210  | M16 x 1,50     | 12     | 24     | 19020    |
| 250  | M20 x 1,50     | 15     | 30     | 19025    |
| 300  | M24 x 1,50     | 17     | 36     | 19029    |
